Privacy & Policy for Datonal App

Our Privacy & Policy informs you about what information we collect from you and how it affects you. It also explains how we protect your privacy, like upgrading our services and giving you another level of protection from Hackers and Scammers.

You can also read Our Terms & Conditions.

Information We Collect from Users

- · Your Last Login Time and Location
- · Your actual address and PIN Code

Information That App Collects from Users for Better Experience

- · Your Last logged in username.
- Data that was failed to upload.

How we Save Your Data

Your data is saved into GOOGLE FIREBASE. Your data is Encrypted with a RANDOMIZER method. The PIN you generate yourself is one and only unique Encryption key. The PIN will not be stored in any case. For the PASSWORD RECOVERY a unique key will be generated based on your PERSONAL DATA *(Your Password, Phone No, PIN Code, Date of Birth)* only when you select to use the PASSWORD RECOVERY method.

*We Cannot store your Personal data; we use it to make your Special Key Offline.
